- **FLYBY** | 2016
- **CobbleStone** | 2016

### AWARDS & HONORS

- deans list
- undergrad teaching assistant at UTA
- name on published game apps

### PROFILE

I am currently a student at the University of Texas in Arlington studying in graphic design and game development. I specialize in illustrations, mainly in character and environmental design. During my studies in college, I had the experience of becoming a teaching assistant for a summer high school game development workshop called SEED. My love for interactive media and games pushes me to pursue my degree and outside projects. Currently I have worked on 3 mobile games in art production as contract work through UTA.
